### TASK 1

Deadline: 4th Oct 2022, 11:59 PM

#### Create your Portfolio App

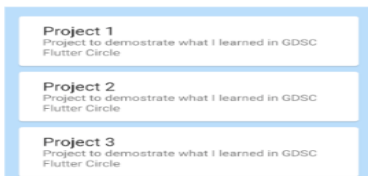

Build your own portfolio app, you can take references from the app that we built in the previous sessions.

But here are the **minimum requirements**.

- 1) **At least two screens.**
- 2) **Replace the column layout of listed Projects (in the Projects page ) with a ListTile widget.**

<https://api.flutter.dev/flutter/material/ListTile-class.html>

For example, you can create something like this:

- 3) **Add a custom font to your app, and use it anywhere you want.**

Refer to this guide below:

<https://www.geeksforgeeks.org/customizing-fonts-in-flutter/>

- 4) **Add an app icon to your app.**

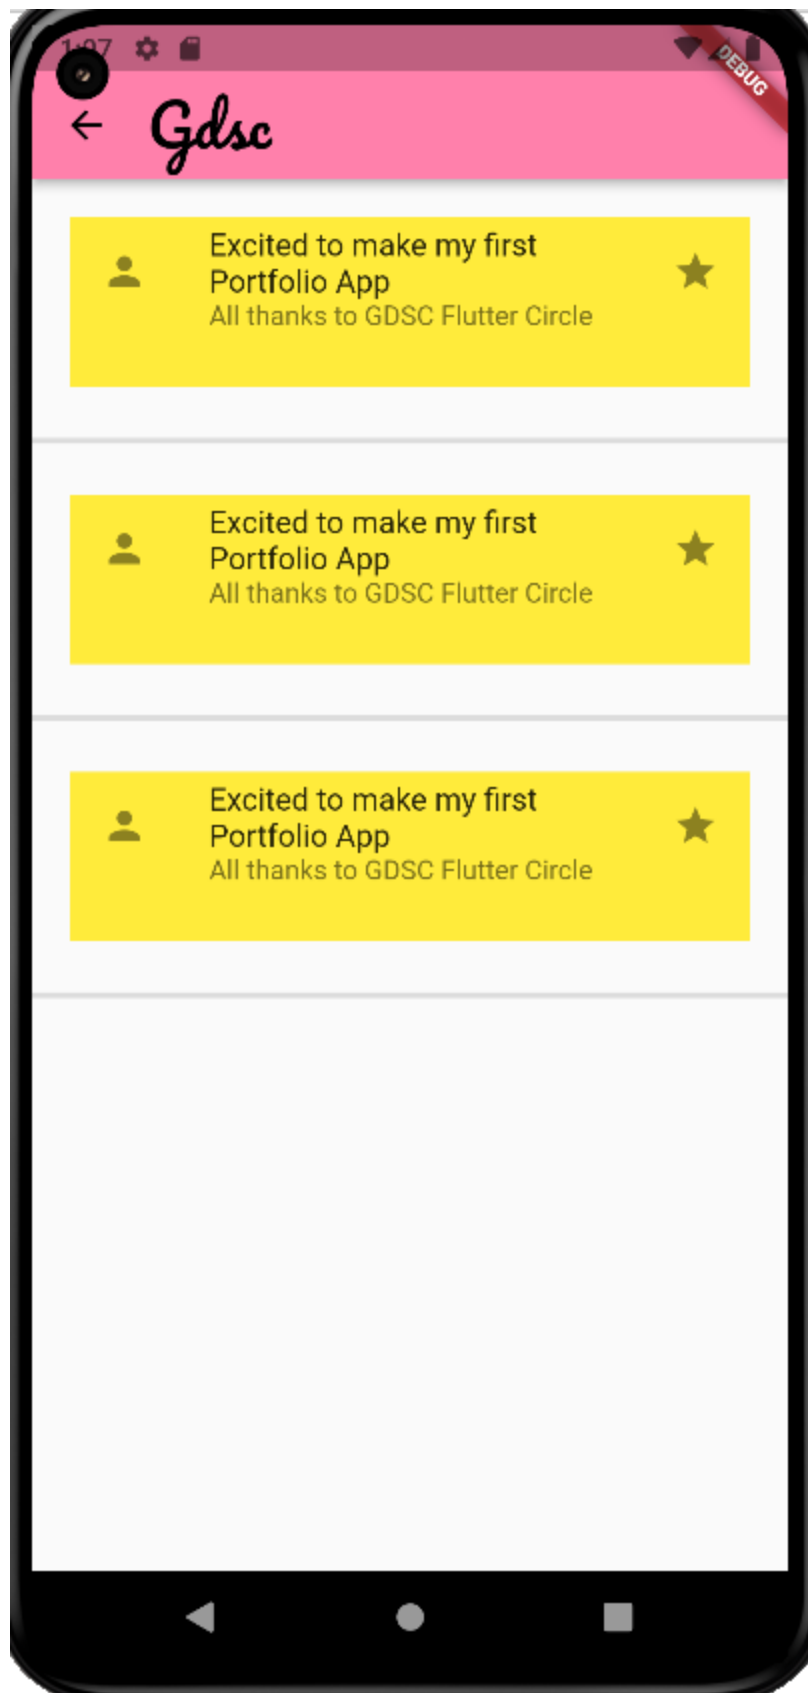

You can follow the guide below:

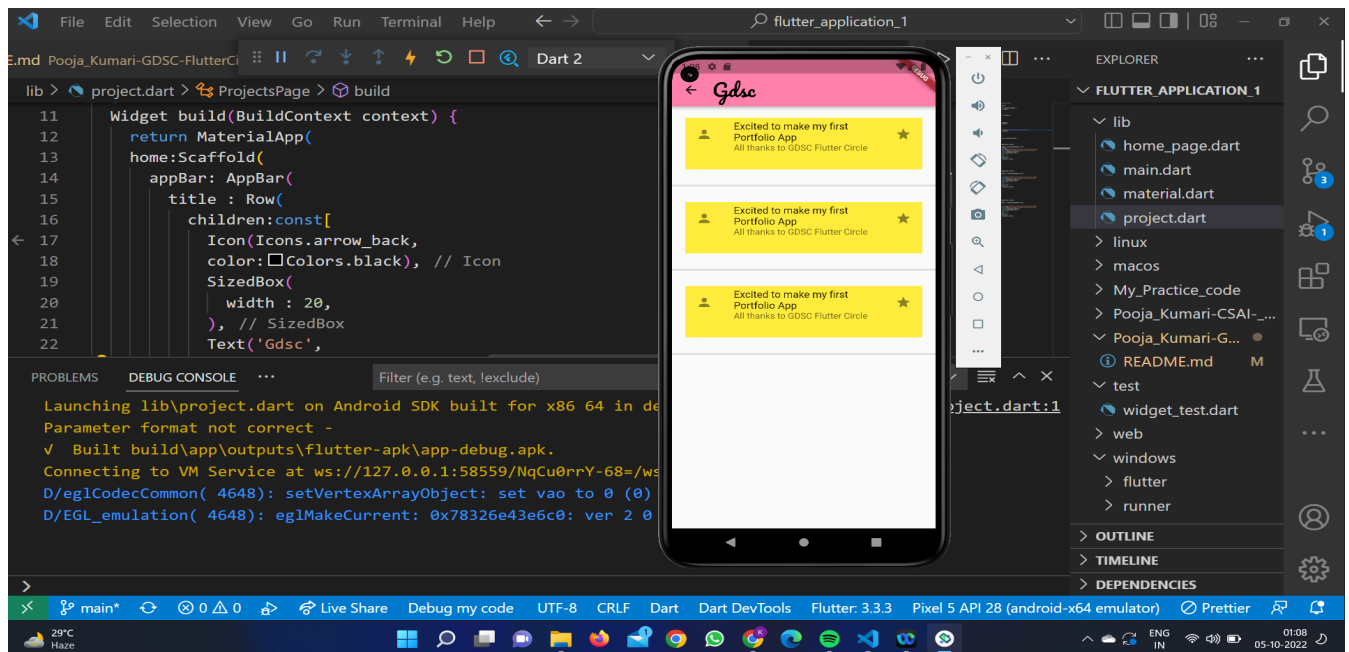

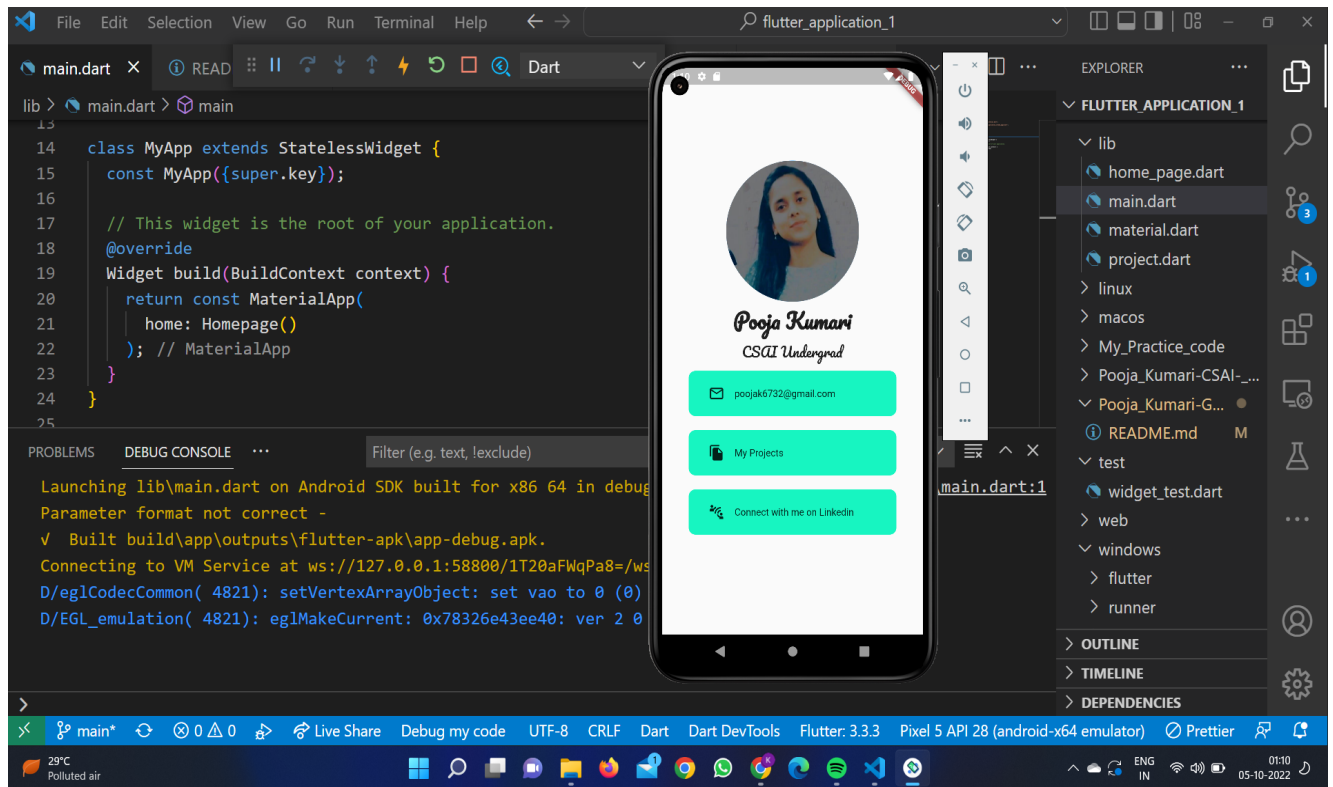

<https://www.geeksforgeeks.org/flutter-changing-app-icon/>

- And lastly, **Bonus points** for creativity!
- Push your code to GitHub.

**Note:** Add images of your app in Readme. Also, add a screenshot to show the app icon that you have added.

# My New Flutter Icon
